 - 2 Turn the crown clockwise to set the date.
After setting the time push the crown back to the normal position.
- ! Please do not correct date between 9 pm and 0.30 am, damages can occur.

SETTING AND ACTIVATION COUNT DOWN TIMER

The count down timer allows the user to choose the time to be counted down up to the start of race timing. the user can set the count down duration between 10 minutes and 1 minute. Adjustment of count down is not allowed during the last minute.

“SECOND CHANCE” COUNT DOWN ADJUSTEMENT

The user can, in all moment, adjust the count during the current count down except in the last minute.

Example:

If the count down was set at 10 minutes at the beginning with delay:

- During the count down runs, the user can press B to adjust the count down minutes, the central minute hand will move from “10 min.” to “9 min.” or “8 min.”
- The small counter hand at 10H will advance fast to make a turn, and stops shortly at “60”, then it continues to count and display the count down seconds.

PROGRESS BEEPER

Once count down is activated, there are beepers to communicate to the user about the progress of the count down.

During count down, 2 beeps emit every minute up to the last minute.

- 50 seconds before the end of count down, 1 beep emits.

- 40 seconds before the end of count down, 1 beep emits.

- 30 seconds before the end of count down, 2 beeps emit.

- 20 seconds before the end of count down, 2 beeps emit.

- 10 seconds before the end of count down, 1 beep emits every second to indicate the end of count down.

- At the end of count down, 1 long beep emits lasting for 1 second to communicate to the user that the count down reaches zero, and the race timing function begins.

COUNTDOWN - SECOND CHANCE

The user can at anytime during the count down period adjust the count down timer, except the last minute.

Example :

If the count down was set at 10 minutes at the beginning with delay:

- 1 The user can, during the count down runs, adjust it to 9 min. by pressing B.
- 2 The central minute chronograph hand will move from "10 min." to "9 min."

The small counter hand at 10H will advance fast to make a turn, and stops shortly at "60", then it continues to count and display the count down sec.s.

- ! Attention !!: This function does not operate when the count down is set at 1 minute, or when the racing timer is in use.

RACE-TIME-FUNCTION

Race timing starts automatically after count down.

The central minute counter hand displays the race timing minutes (1 step every 12 seconds). The small hand at 10H counter displays the race timing hours from 0 hour to 24 hours, up to 96 hours maximum (1 step every hour). Between "24" and "0", the small counter hand advances fast.

To display race timing seconds at 10H counter (1 step every 2 seconds).

The race timing function allows the measurement of a duration of 96 hours at maximum (= 4 days), then stops. At the end of the race timing, the small counter hand at 10H will rest at "0", and the central hand will rest at "12".

COUNT DOWN / RACING TIMER RESET

COUNT DOWN RESET

1 To reset this two functions, you have to stop its previously

2 Reset the small counter hand by pressing button B. The small counter hand at 10H is reset to zero ("60"), and the central hand returns to the previously set count down start time.

RACING TIMER RESET

Press B, the small counter hand at 10H Displays the counted seconds. Press B again, the small counter hand at 10H i reset to zero ("0"), and the central hand returns To the previously set count down start time.
